Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of the amendment filed 11/26/2004.

The rejection under 35 USC 102(b) over Kohyama is hereby withdrawn.

Information Disclosure Statement

Applicant has noted that a form 892 was provided with the US Patents not filled out properly on the PTOL-1449. This was done purely as a courtesy, and the intention of the statement in the last action was to let applicant know that the PTOL-1449 should be properly filled out for references to be considered. Another examiner may not take the time to fill out the extra form and simply not even consider the references.

Therefore, applicant should note that in future applications, the PTOL-1449 should be properly filled out in order to insure that the references are considered.

Specification

The newly provided Abstract is noted. The objection to the specification is therefore withdrawn.

The rejection under 35 USC 102(b) over Azizi et al is maintained in this action.

Response to Arguments

Applicant's arguments filed 11/26/2004 have been fully considered but they are not persuasive.

Applicant argues that the reference does not properly anticipate the claims in that each and every element is not set forth. However, applicant agrees that Azizi et al teaches the administration of the same cells, by the same route, to the same organ, and said cells migrate in the same way as claimed in the instant application. Azizi et al further provide the suggestion to use said implants in the treatment of various CNS diseases. While Azizi et al does indeed use a healthy brain, the mechanism of action of these migrated cells is an inherent property of these cells, not the condition of the brain. They would function in the same way regardless of the condition of the brain. Since applicant agrees that the Azizi et al does indeed show, survival, engraftment, and migration of these stromal cells, subsequent biochemical action of these migrated cells is inherent to either, the treatment claimed is indeed considered inherent, since those migrated cells would function to improve the various factors used to test for the efficacy of the instant method. As such, Azizi et al is indeed enabled for this treatment. For these reasons, the rejection under 35 USC 102(b) is hereby maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
